HL-5350DN High speed network-ready mono laser printer with built in duplex

Fast, feature-rich...

Its compact design makes the HL-5350DN the ideal choice for busy offices where space is at a premium. Share this printer within your existing office network. With compatibility across Windows®, Macintosh®, Linux, Unix and DOS based platforms as well as convenient paper handling, the HL-5350DN is ideal for your everyday business printing needs – and produces fast results, printing up to 30 pages per minute.

... and easy to use

Hi-Speed USB 2.0 and Parallel ports make it simple to connect the HL-5350DN to your PC. Use the 50-sheet Multi-Purpose Tray with Straight Paper Path to easily print on envelopes, special paper and labels. With a standard paper tray for 250 sheets you don't have to resupply paper all the time. For even more flexibility, add up to two paper trays for a maximum input of 800 sheets. See the current status of your printer at a glance with the 3-colour LED display.

Cost-cutting performance

Offering automatic duplex, the HL-5350DN allows you to reduce paper usage. High yield toners are available and bring your cost per page down to a minimum, as does printing in Toner Save Mode. In addition, toner and drum are kept separate: this is an economical solution, since you only replace the material that has been used.

Environmentally-friendly – and cost-saving

The HL-5350DN is ENERGYSTAR-certified for its energy efficiency. Furthermore, it has been granted the prestigious German Blue Angel environmental award for its recycling-friendly design, very low noise levels and low emissions. These environmental credentials are good news for the environment as well as your office.
